Peralta Stock Issue Request

Duotao Gao | EGR 304 | Team 103 GripRx | October 29, 2026

Email: duotaoga@asu.edu | Instructor: Zane Reynolds (10:30), zdreynol@asu.edu

UI board components for breadboard prototyping and PCB assembly. Requested quantities include planned spares. Already reported available parts are not ordered again.

Seven stock-request lines, excluded from the $60 allowance. C2 and C14 are purchased separately. Course-sheet row numbers identify source entries, not physical shelf/bin locations. Issue quantities and any charges remain unconfirmed.

Refs	Qty	Source row	Required material	Issue / package notes
F1	4	87	1.5 A, 5 x 20 mm cartridge fuse	Course list row 87; not a shelf/bin number. List links NTE 74-5FG1.5A; verify the required fast/slow characteristic before assembly. Required quantity is a request, not a claim of receipt.
RV1, RV2	4	54	10 kohm potentiometer, top-up after two owned units	Course list row 54; not a shelf/bin number. WH148-style stock; verify 10 kohm marking and actual footprint; not the prior Piher trimmer footprint. Required quantity is a request, not a claim of receipt.
U3 socket	3	78	14-pin DIP socket, 7.62 mm row spacing	Course list row 78; not a shelf/bin number. List links ED14DT. Required quantity is a request, not a claim of receipt.
Shared male header stock	3	75	40-position 2.54 mm breakaway male header strip	Course list row 75; not a shelf/bin number. 120 pins: LCD 48 + GPIO 30 + jumper headers 12 + test points 14 = 104; 16 spare. Required quantity is a request, not a claim of receipt.
J4 PCB socket	2	76	40-position 2.54 mm female header strip	Course list row 76; not a shelf/bin number. Two 40-position strips provide three 16-position LCD sockets after cutting; allow sacrificial contacts when cutting. Required quantity is a request, not a claim of receipt.
F1 holder	3	63	5 x 20 mm PCB fuse holder	Course list row 63; not a shelf/bin number. List links Keystone 4628; use its actual drawing, not the prior 4527 footprint. Required quantity is a request, not a claim of receipt.
J3	3	64	PJ-102AH through-hole DC barrel jack	Course list row 64; not a shelf/bin number. Exact list match; check adapter plug and polarity. Required quantity is a request, not a claim of receipt.

Issued by: _____ Date: _____ Actual quantities / substitutions: _____

Verify actual values, pin mapping and footprint of the issued parts before PCB assembly.
